

# DESICCANT REQUIREMENTS CHART GRAM SIZES

## Usage Requirements

Select container size and read across to find required amount.

| Container Size<br>(Cubic cm) | Required amount weight (grams)+ |          |             |             |           |
|------------------------------|---------------------------------|----------|-------------|-------------|-----------|
|                              | Desi Pak®                       | Sorb-It® | Getter Pak® | 2-in-1 Pak® | Tri-Sorb® |
| 30                           | ¼                               | ¼        | ¼           | ¼           | ¼         |
| 40                           | ¼                               | ¼        | ¼           | ¼           | ¼         |
| 50                           | ½                               | ½        | ¼           | ¼           | ½         |
| 60                           | ½                               | ½        | ½           | ½           | ½         |
| 75                           | ¾                               | ¾        | ½           | ½           | ¾         |
| 100                          | 1                               | 1        | 1           | 1           | 1         |
| 150                          | 1                               | 1        | 1           | 1           | 1         |
| 200                          | 2                               | 2        | 2           | 2           | 3         |
| 300                          | 2                               | 2        | 2           | 2           | 3         |
| 400                          | 3                               | 3        | 2           | 3           | 3         |
| 500                          | 3                               | 3        | 2           | 3           | 3         |
| 750                          | 5                               | 5        | 2           | 5           | 5         |
| 950                          | 5                               | 5        | 5           | 5           | 5         |

+Request the Desiccant Performance Data Profile for complete adsorption capabilities.

**NOTE:** The amount of desiccant/adsorbent required will depend on the chemical characteristics of the product, as well as the volume contents and physical properties of the container. Please contact AGM Container Controls if you need further information.
